

co-located with *ECTEL '09: The 4th European Conference on Technology Enhanced Learning*
Nice, France, 30 September 2009

Morning Session

0900-1015

Welcome

0915-1015

Keynote speech: Vincent Wade. "Semantic Web techniques for Personalised Technology Enhanced Learning in HE"

1015-1030

Q&A

1030-1100

COFFEE

1100-1130

Thanassis Tiropanis. **A linked data field for semantic applications in HE (SemTech)**

1130-1200

Michael Tscholl, Frances Tracy and Patrick Carmichael. **Case Methods, Pedagogical Innovation and Semantic Technologies**

1200-1230

Patrick Carmichael and Agustina Martinez Garcia. **Semantic Technologies to Support Teaching and Learning with Cases: Challenges and Opportunities**

1230-1300

Minh Tan Vu and Angela Goh. **i-OntoLearning: Ontological support for rich learning**

1300-1400

LUNCH

Afternoon Session

1400-1430

Nadeem Shabir and Chris Clarke. **Using Linked Data as a basis for a Learning Resource Recommendation System**

1430-1500

Alexandra Poulouvasilis and Peter Wood.

Flexible Querying of Lifelong Learner Metadata

1500-1530

COFFEE BREAK

1530-1700

Panel session: "A roadmap for semantic technologies in HE". Chair: Hugh C Davis. Panel: Stefano Cerri, David Millard, Kathy Kikis-Papadakis, Alex Poulouvasilis.

Posters

Axel Tenschert and Alexey Cheptsov. **Effective Ontology Matching in High-Performance Computing Environments**

ENSEMBLE Project

SemTech
